Between April and the middle of November 1952, 2,000 jet airplanes were built at the Avia factory¹. The aircraft bore a Russian name, but were not MIG-15's. This line of 2,000 jet airplanes was manufactured in 14 partial series (Teilserien). Another larger line, supposedly commercial airplanes, is to go into production for China.

25X1A 1. [REDACTED] Comment: Presumably the J. Dimitrov plant of Avia, Letnany, is meant.
